

CELEBRATE Canada!

Transform students into master planners
who appreciate Canada's quirks.

piqTM
Potential

The Canadian planner encourages students to dream in detail,
using planning strategies to support their success.

The Canadian student planner is a full-colour planner designed to help students organize their tasks, prioritize their time, and plan for success, all while learning fun facts about our great country.

With four levels tailored to different grades, each planner is specifically crafted to meet the developmental needs of students and includes features that support learners' success at every stage of their education journey.

Packed with engaging content and trending designs, The Canadian student planner is anything but bland! At PiQ, we understand that the first step in getting kids to embrace planning is to make it so appealing and interesting that they can't resist. That's why our planners are designed to be fun and functional, ensuring they're not only used but loved.

What's Special About the Canadian Student Planner?

Canadian Content

Quirky, informative, factual, and fun! The content in the Canadian planner captivates students with interesting facts about Canada, fostering a sense of patriotism. Unlike other Canadian-themed planners on the market, our planner ties Canadian topics to planning, time management, and organization, helping students develop critical life skills in addition to a sense of national pride.

Powerful Skill Building

Intuitive layouts tailored to the needs of each level provide a framework for students to work through the planning process, helping them develop skills and strategies that foster organization, accountability, and momentum. Developmentally appropriate features support students' planning needs at each level.

Student-First Approach

Discover the difference of our kid-centric planners. Unlike other planners on the market, ours are tailored to students' likes, interests, and unique challenges at each academic stage. Exciting designs and engaging content keep students invested in using their planners.
